

## JOHNSON PICKED BY PROGRESSIVES FOR PRESIDENCY

California Senator is Backed By Many Liberals, is Claim

His Speech on League of Nations Brought Climax, Borah Says

WASHINGTON — Senator Hiram Johnson, of California, is the candidate of senate Progressive leaders for the Republican nomination for president in 1920.

Senators Borah and Kenyon joined Tuesday in this announcement, declaring they spoke for all the senate Progressives and for a group of liberals scattered thru a number of states.

These men have already begun active campaigns to line up the liberals' support of the country behind Johnson, it was stated. The call recently issued by California friends of Johnson for a meeting to launch his candidacy is part of the general campaign. Progressive senators stated, WILL TEST STRENGTH

Johnson's supporters plan, Borah said, to go immediately into all states where the primary for election of delegates to the national convention prevails in hope of getting an early test of Johnson sentiment.

"Progressives have been uniting on Johnson for the past two or three months," said Borah Tuesday. "His speech on the league of nations brought the matter to a climax. From all over the country men of the liberal beliefs have been writing in and some of them have come here for conferences."

"The result is that Senator Johnson is our candidate. He has the absolutely undivided support of senate Progressives."

Borah made it plain that he has never been a candidate for the nomination but his name has been mentioned in practically every discussion of prospective Republican aspirants.

PROGRESSIVE PLATFORM  
The platform upon which Progressives will put forward at the Republican convention is to contain among others the following planks, Progressives stated:

- 1.—Permanent untangling alliance with Europe and no meddling by Europe in American affairs.
- 2.—Immediate return of all American troops from abroad, particularly from Russia.
- 3.—Complete restoration of free speech, a free press and the right of peaceable assembly.
- 4.—A labor program based on co-operation and a greater interest of workers in the industries which their toil creates.

Johnson declined to comment on the announcement of his friends.

## LIQUOR QUESTION IS EXPECTED TO COME UP TODAY

Prohibition Issue May Be Brought Before Labor Federation Convention

ATLANTIC CITY—Today was resolution day at the convention of the American Federation of Labor, and the resolution proposers were out in force. Numerous plans for changing labor conditions were to be presented to the convention, which will act on them later.

Prohibition was expected to come up, thru the brewery workers.

Frank Farrington, president of the Illinois district of coal miners, planned to ask the federation's sanction of a five day week, six hours a day for miners. He declared there are 50,000 miners out of work and the new plan, he said, would provide the nation with coal and all miners with work.

The building trades were to ask for a forty hour week at a dollar an hour.

Supporters of the plan for a labor demonstration for Tom Mooney, the San Francisco labor leader, under life sentence following conviction for implication in the preparedness day bomb attack in San Francisco several years ago, had a resolution ready. It is not believed the federation will consent to a strike as a demonstration even for 24 hours. The building trades representatives planned to ask an investigation into the high prices of building material.

## LEGAL BATTLE LOOMS IN CAR STRIKE AT DETROIT

DETROIT—Indications of a legal battle were in sight between the Detroit Union Railway company and the courts as the strike of carmen for a higher wage entered into its third day today.

Circuit Judge Marschner last night issued an injunction against the company to restrain it from discontinuing service on the Pingree three cent lines.

However, the car company has not yet moved a car from its barns, indicating it intends to fight the matter out with the court as it announced it would do when the strike began.

## HE HELPED UNCLE SAM, NOW HE IS ASKING YOU TO HELP HIM

EVERYONE knows this youngster. He has been in the public eye since the war started, and he was doing something all the time.

It's hard to recall an occasion on which he was not there. He was working, looking after details and making the load lighter for all concerned. He did his work well, and now is asking the public to give him a boost.

The Boy Scouts of Allen county are in the midst of a drive for 1,000 associate members to strengthen their organization. It is a small thing they are asking, but it will mean much to their future success. They are working in all parts of the county for enlistments in their organization and are getting good results. Men and women are being asked to take an associate membership and they are doing it. It is believed the full quota will be reached in the county.

## BIG FOUR DEMAND HUNGARY SOVIET GOVERNMENT STOP WAR ON CZECHS

Peace Conference Undertake to Bring to End the Three-Cornered Conflict

Adriatic Question Still Unsolved—Austrians Protest Treaty Terms

PARIS — Reports of the various allied commissions regarding German counter-proposals were before the big four today. Some of the reports, it was learned, are ready to be incorporated in the allied reply—expected to be submitted Friday—while others probably will result in further discussion. In this category are the questions of a fixed sum for reparations and early admission of Germany to the league of nations. A lively debate on the letter was anticipated. The British and Americans, it was understood, favor earliest possible admission of the Germans, the French hotly opposing it.

The big four also was expected to devote some time to solution of the problem presented by the three-cornered warfare in which the Rumanians, Czechs and Hungarians figure. The allies are reported to have dispatched an ultimatum to the Hungarian soviet government demanding it cease its attacks on the Czechs.

The Adriatic question, which has been one of the hardest nuts for the peace conference to crack and which resulted in temporary withdrawal of the Italian delegates, is now reported to be virtually settled. The United Press is able to outline this plan. It follows:

- 1.—Fiume will be made a free city, under protection of the league of nations, together with considerable surrounding territory, which becomes a free state.
- 2.—Sibenico will go to the Jugoslavs.
- 3.—Zara will become a free city under Italian control.
- 4.—Certain Adriatic islands adjacent to the Jugo-Slav coast will be awarded to Italy.
- 5.—A plebiscite will be held in five years to determine whether the people of Fiume and the surrounding free territory desire to remain under the league of nations, or become subject to either the Italians or the Jugo-Slavs.

## HUNGARIANS GAIN

BUDAPEST. — Hungarian soviet forces continue to press back the Czechs on both the Tisza and Waag river fronts.

The Hungarians have captured Satoralja-Ujehy, (130 miles northeast of Budapest.) Reports of the capture of Kaschau (35 miles northwest of Satoralja-Ujehy on the Tisza) are officially denied.

It was stated the city is practically surrounded. Kamoran (35 miles west of Budapest at the junction of the Danube and Waag rivers) is already in the hands of the Czechs northward along the Waag is seriously menaced. Several thousand French Sengalese troops are reported to have passed.

## Bride Of Greatest War Hero Gets Her First Ride On Train

NASHVILLE, Tenn. — Sergeant Alvin C. York, the "war's greatest hero," with his bride and his mother, held a public reception attended by thousands of Nashville residents at the mansion of Gov. Roberts today.

The Yorks arrived here from their home at Fall Mall yesterday. The mother and bride had never before ridden on a railroad train or seen a city.

The hero and his family attended a meeting at the auditorium last night where he was presented with a diamond encrusted medal for valor on behalf of the state. The mountain bride received a handsome brooch from the suffragists.

The mother, wearing a sunbonnet and dressed in a plain black waist and white skirt, was presented and stood smiling and unafraid as she was cheered when termed by Governor Roberts as "the mother of the world's greatest hero."

## GERMANY'S 'IRON HANDED RULERS' READY FOR RISING

Berlin Taking No Chances As to Expected "People's Coup," Says Report

Trouble is Expected by Berlin When Peace Treaty is Disposed of

BERLIN—Despite the doubt cast by government leaders on the will-advised rumors of a forthcoming "people's coup" to overthrow the present regime, War Minister Noske is taking no chances. His guards—the iron handed rulers of Berlin—are in readiness for any eventuality. He has undertaken the task of assuring their loyalty through increased pay and other concessions.

Whether a coup really will be attempted is expected to depend largely on the developments in the next few days. At present there are signs of a political flu, which may find all political parties ultimately re-aligned. While a refusal to sign the peace treaty would undoubtedly lead to resignations in the present cabinet, or perhaps even a complete overthrow of the government, there is a feeling that considerable reorganization is certain in any event. Whether these changes will come peaceably or through force is a question politicians are striving to solve. It is this feeling of uncertainty that has led Noske to prepare to avert anything approaching the bloody days of last winter.

Press reports are alternately optimistic and pessimistic regarding modification of the treaty. What appears like propaganda to many are the stories indicating President Wilson is the stumbling block in the path of obtaining modifications. So far as the government is concerned it has not weakened in its position of not signing without alterations. But previous United Press forecasts that the concessions need not be overly important represent the prevailing opinion in many quarters.

## READY FOR TRY AT SEA FLIGHT

British Aviator to Attempt Non-Stop Trip Across the Atlantic

ST. JOHNS, N. F.—The British Vimy bomber airplane, piloted by Capt. John Alcock, with Lieut. A. W. Brown as navigator, was ready today for an attempt at a non-stop flight across the Atlantic.

Weather conditions permitting, Alcock was expected to start by tomorrow. There was a possibility that he might hop off today, following Hawker's route toward the Irish coast. Those attached to the Vimy camp, however, would not go further than to predict a start would be made during the week.

The Vimy was taken for a trial spin yesterday, maneuvering over the water and making a good landing. Capt. Alcock was anxious to get away before the huge Handley-Page "Berlin bomber," which was nearly ready for its own trials when the Vimy made its test trip. The Handley-Page, Major H. G. Brackley commander, will be ready to start before the end of this week, according to present indications.

## 'MYSTERY YANK'S' ARRIVAL AWAITED BY TWO MOTHERS

Women Watch the Landing of Soldiers for Boy Who Forgot His Name

Finally Claimed by Indiana Parents—Hopes of the Others Dashed

NEW YORK — The transport Mount Vernon arrived today with over 5,000 troops of the sixth division. This regular army drew draft replacements from all parts of the country. The organizations on board were:

Sixth division headquarters troop; 54th infantry; 11th field artillery; sixth field battalion; signal corps; 12th infantry brigade headquarters; Major Gen. Walter H. Gordon, division commander, and Brig. Gen. Lucius L. Dufrice, 12th brigade, returned.

MYSTERY SOLDIER ABOARD.  
Two hopeful mothers waited on the pier as the transport Mount Vernon cautiously groped her way through the fog. They believed that on the boat would be a son for one of them—the other no son.

The "mystery soldier," who had convinced some army doctors he was an amnesia victim unable to remember his name, was returning by General Pershing's order, that his identity might be cleared up.

The Rev. Malcolm D. MacLeod, pastor of Collegiate Reformed Church of St. Nicholas, believed the mystery soldier would prove to be his son, Blakeley MacLeod, under draft age and a volunteer, who disappeared shortly before his regiment left for France last summer.

"Offers of reward failed to bring a clue to Blakeley until we heard about the boy in France who could not remember his name," said Mrs. MacLeod, waiting in Capt. Blake's office for the "mystery soldier" to be brought in. "We had friends in France who called on the boy and they wrote back that he said he was our son. He wrote us letters which he signed 'Blakeley.' Well, we'll know for sure very soon now."

Her eyes rested on, then hastily left a woman sitting across the room. This woman was Mrs. Roland and Phillips, Flushing, L. I. Commanders of her son, Conrad Phillips, have told her they saw her boy fall in battle. As she watched the lazy clock hands this morning her hope was strong, because the "mystery soldier" was on the army rolls as "Roland Phillips." The fact the army records showed his address to be Evansville, Ind., failed to shake her belief that somehow a mistake had been made when her son had been listed as killed.

And out in Evansville this morning Mrs. Phillips was hoping the soldier's arrival would establish the fact that the army records were correct—that he was the son whose letters suddenly stopped.

SON OF ANOTHER.  
Unnoticed even by her husband, Mrs. MacLeod slipped out of the room toward the approaching group of soldiers. Fifty feet away she stopped; her mother eye saw, and she rested on a bench and then returned to the room.

From the look on her face the other mother took courage. She started eagerly, smilingly, as she stepped toward the youth they were bringing in. He stopped under the electric light's glare and she stood still. She shielded her vision with her handkerchief. An officer helped her find the door leading from the room.

The "mystery soldier" was the son of Dr. Evansville mother. Dr. MacLeod walked to within three inches of him. For some moments the minister merely stared into his eyes. Then Dr. MacLeod said: "You've been playing with us. My friends got you transferred to a hospital from the prison where you were held for taking the colonel's automobile. You even wrote us signing yourself 'Blakeley.' Oh, why did you tell army officers you were my son? For the suspense you've caused you ought to be in prison. You've been making it easy for yourself at the cost of mother's torture."

## MANY WINNIPEG KEY MEN RETURN TO JOBS

WINNIPEG, Man.—The first serious break in the ranks of the strikers occurred Tuesday as scores of telegraphers deserted the unionist rank, returned to their keys in the offices of the Canadian Pacific railway and the Great Northwestern Telegraph company.

The return to work followed defeat last night of the opposition of the city's "ave" to appropriate \$150,000 to hire a new police force, replacing the one discharged when its members refused to sign the city's "loyalty" ultimatum.

The bill was passed by the city council with five labor aldermen voting against it.

ENOUGH TROOPS  
WASHINGTON—Sufficient regular army troops are stationed in Texas to meet any situation that may arise on the Mexican border. Major Gen. Cabell, commanding the southern department, stated in a telegram to the war department Monday.

## 50,000 KEY MEN EXPECTED TO STRIKE TOMORROW

Suffrage Ratified By Two States

SPRINGFIELD, Ill. — Illinois has ratified the national suffrage amendment. The house adopted the ratification resolution three minutes after it convened today, and the senate passed the house resolution half an hour later.

MADISON, Wis. — The Wisconsin general assembly today ratified the national woman's suffrage amendment. The senate vote 24 to 1, while the lower house ratified it 54 to 2.

## WOULD SUBMIT NATION LEAGUE TO U. S. PEOPLE

Knox Offers Resolution in Senate Calling for Redraft of Treaty

Meant to Give Americans Opportunity to Pass on Covenant, Says Senator

WASHINGTON — Senator Knox today offered a resolution in the senate stating that it is the sense of that body that the peace treaty be so drawn 'as to permit any nation to reserve without prejudice to itself for future separate and full consideration by its people, the question of a league of nations.'

The resolution declared that this would permit immediate conclusion of peace with Germany and gave notice to the peace conference that inclusion of such a provision "will facilitate the early acceptance of the treaty by the senate."

Neither would it interfere, the resolution states, with the organization of the league of nations, or with the participation of the United States in league activities pending final decision by the American people and the senate as to whether they want to accept the obligations of league membership.

Knox made it plain that his resolution is not an effort to separate the treaty and the league covenant. "We are not asking separation of the two," said Knox. "All that is asked is that the people in any nation may take their own time about acceptance or rejection of the league while putting into full force all the other provisions of the treaty."

It is provided that "any dispensable corporation by the United States in matters covered by the league covenant shall, pending the entry of the United States into the league, be accepted through diplomatic commissions."

## PURPOSE OF RESOLUTION

Knox, explaining the purpose of the resolution, said it is to afford an opportunity for the American people to hear all the facts about the league and then express their deliberate judgment on it, while at the same time permitting the ending of the war and the participation of the United States in the making of peace.

The resolution in part reads: "The senate will regard as adequate for our national needs \* \* \* a peace treaty which shall assure to the United States \* \* \* attainment of those ends for which we entered the war, and will look with disfavor upon all treaty provisions beyond these ends."

"This resolution indicates and gives notice to the limits of the present obligations of the United States in which the senate is now prepared to acquiesce and that the adoption by the peace conference of the foregoing reasonable limitations will facilitate the early acceptance of the treaty by the senate will in no wise interfere with the league of nations as between those countries prepared to ratify the treaty without further consideration and will afford such a manifestation of real respect for the wishes of a great people as cannot fall more firmly to cement the friendship between ourselves and our co-belligerents."

PLEDGES U. S. AID  
Concluding the resolution pledges the United States to go to the defense of humanity and civilization should the need arise.

Knox declared that under his plan the possibility of the United States being forced to make a separate peace with Germany would be greatly reduced.

That possibility, he said, has long been apparent to the senators. The resolution was referred to the foreign relations committee. Knox announced he will address the senate on it soon.

This Number Will Answer Walk-Out Call, Says President of Union

Washington May Take Action to Prevent Tieup of Nation's Wires

CHICAGO — Between 40,000 and 50,000 telegraphers will leave their keys at 8 a. m., in answer to the call for a general strike, according to latest estimates in the hands of President Koenekamp, of the Commercial Telegraphers' Union of America, here today.

Koenekamp said this number might be decreased in case settlements are reached with companies involved. "I have no reason to participate settlement with any of the companies," Koenekamp said.

Reports that Clarence Mackay, President of the Postal Telegraph company and other associated companies, had sent a committee here to confer with him were declared by Koenekamp to be "news to him."

Koenekamp said the first break in the ranks of employees came last night when the Federal Telegraph company, a combination of wire and wireless systems on the Pacific coast and to Honolulu, signed the agreement granting the union demands.

It was estimated more than 6,000 telegraphers will strike in Chicago alone.

## U. S. MAY ACT

WASHINGTON—With only 24 hours remaining before the threatened nation-wide strike of telegraph and telephone workers is scheduled to become effective, some official action in an attempt to forestall the walkout was looked for here today.

Postmaster General Burleson, who has held numerous conferences with wire and postoffice officials since announcement of the strike Saturday night was expected to outline his policy in a public statement.

Senator Watson, Indiana, and Representative Gallivan, Massachusetts, were to receive data from local union officials on their charge that the Western Union discriminated against union employees. Watson and Gallivan are authors of resolutions for investigation of the wire situation.

House leaders were also considering an investigation of the wire administration by the house committee on expenditures in the postoffice department.

Officials here today reiterated their statements of yesterday that the strike would in no case be allowed to halt cable communication with Europe as far as governmental messages are concerned, or tie up other essential government communications.

SPRINGFIELD, Ill. — Charles P. Ford, secretary of the international brotherhood of electrical workers, expressed the hope here today that the general strike of telephone workers called for June 16, might be averted.

Though he had received no word from the conference in New York between representatives of the companies and the employees, the fact that the sessions are continued indicated, he said, that some basis to work on had been reached.

Unless an agreement is reached, linemen, cable splicers, installers, repairmen, trouble "shooters" and all other electrical workers in the mechanical department of the country's telephone companies will walk out June 16. Companies that have reached an agreement with the men, however, will not be affected by the strike.

## 60 KILLED IN RIOT

Battle Results From Mexican Election Says Report

LAREDO, Tex. — Sixty persons are reported killed and many wounded in election riots at Monterey, Mexico last night, in messages received by Mexican officials in Nuevo Laredo today. Officials had no confirmation.

Dispatches yesterday said one man was killed and three wounded in disturbances attending Sunday's gubernatorial elections in the state of Nuevo Leon. Juan Garcia, anti-Carranza candidate, was reported elected.

## COLUMBUS SHOPMEN TO VOTE ON STRIKE FRIDAY

COLUMBUS.—Railroad shopmen from all the roads operating through Columbus will hold a mass meeting Friday night to vote on the proposed general strike June 16.

Shopmen of the Northeastern district have already voted to go out and it was predicted that the local crafts will do likewise. The strike is aimed primarily to get some action out of the railroad administration on the application for increased wages presented by shopmen last October.

## SWINDLE EXPOSED

## Marble Will Wash Off—That's Off the Building

It has been eight years since a certain "Get-Rich-Quick-Wallingford" visited Lima, interested capital and prominent men in a patent marble making industry, attractively decorated several building fronts, and left.

But the evidence of his swindle was left, and the old Sanford block, on the square, which is undergoing facial improvements has exposed the fake.

The alleged marble was advertised as better than Caracara marble, and "it will wash right off," was the boast. The contractor who is tearing the make-believe marble down preparatory to refacing the building, said "Yes, it will wash off, all right. Off the building."

## DECORATION OF COURT HOUSE STARTS TOMORROW

Work on the decoration of the court house in preparation for the coming G. A. R. encampment to be held here next week will start Wednesday. A Toledo firm was awarded the contract two weeks ago for a sum of \$100.

The building will be resplendent in the national colors and will present one of the finest appearances of any structure in the city. Several novel features are to be worked out in the scheme of decorations.

## BONE TRANSFERRED

ST. MARYS—Transfer of a section of bone from his shoulder blade to his skull to close a gap caused by a shell fragment in the Argonne fight, was the experience of John Young, local soldier, who just returned from Camp Sherman military hospital. The bone transfer was made to guard against shock, which, in the region of the brain, doctors claimed, would easily prove fatal.

## Rowlands Turns Support to Col. Harley for Mayor

One man has dropped out of the race for mayor. Carl K. Rowlands, who had prepared to file his petition on the Republican ticket, has withdrawn in favor of Col. John A. Harley. In dropping out he is transferring his support to Harley.

Several hundred letters have gone out from Rowlands to those signing his petition thanking them.

He explains that the management of Rowlands furniture store will require his entire time and that it will be impossible for him to go on.

Col. Harley announces he will file his petitions in a day or two. He is a returned soldier, having served with the 37th Division in France. He is well known in Lima and is popular. The transfer of Rowlands' support will be a big boon him in his race.

## POSTMASTER DOES NOT EXPECT DEMANDS FROM EMPLOYEES IN OFFICE

Following the demand of Cleveland postal clerks for a better wage and better working conditions Postmaster Sullivan stated this morning that no evidence of any trouble is apparent at the local office.

Telegraphers, electricians and R. F. D. carriers are to be asked to join the movement at the lake city.

"We have had no notification on the part of the local employees of any current or intended raise to be asked by them here," he stated Tuesday. "It is my opinion that the organization in Cleveland is affiliated with the American Federation of Labor, a condition which does not prevail in Lima."

## MOTOR TRUCK CRUSHED BETWEEN 2 CITY CARS

Sidney Bowers, of the Bower's bakery, escaped serious injury and possible death when a machine he was driving was crumpled between two city cars at Eureka and Main streets Monday afternoon, at 4:30 o'clock.

The truck which is used as a delivery wagon, was following a north-bound car when it stopped at Eureka to discharge passengers, also necessitating the auto to come to a stop. An approaching car rammed into the rear end and demolished it.

The city car was badly damaged, but proceeded to the barns under its own power. The crew was Ira Crisswell, conductor, and Earl Shingledecker, motorman.

Superintendent Cramer of the city lines could give no explanation as to the falling of the oncoming car to stop.

## EGYPTIANS ALSO PLEAD WILSON'S FOURTEEN POINTS

Trouble Over England's Protectorate Serious—Rule Held Not Ideal

PARIS—No wiserously Egyptians are protesting British rule and some of the reasons therefor are revealed in a letter received from a British soldier stationed in Egypt. Inasmuch as the Egyptians are urging Wilson's declarations in behalf of the rights of small nations in support of their contention that the British protectorate assumed in December, 1914, should cease now that hostilities have ended, Americans may find the situation interesting.

"The causes of the present open defiance of the British," the soldier writes, "are many and varied, and on the whole do not reflect any great credit on the present administration of the country by the English. When England first entered the country, some 37 years ago, as the result of a decision by the Great Powers, Egypt was on the verge of bankruptcy as the result of extravagance and misrule by Turkey."

"One of the greatest causes of dissatisfaction in Egypt is the system of 'capitulations.' These are laws by which the subjects of European powers are not subject to the ordinary laws of Egypt. When a foreigner commits a crime he can only be tried with the sanction of his own government and only before a mixed tribunal composed mostly of his own nationals. England has promised they shall cease during the present year."

"When England entered Egypt it was with three announced objects—First, to restore the financial status of the country, second, to abolish capitulations, and third, to educate the Egyptians to a point where they could govern themselves. In the first two they have succeeded. Egypt is in good financial condition and it is promised capitulations shall end soon. But in the third object, failure has been the result."

"England introduced a system of secondary education of a secular character on Western lines, without considering the Egyptians are an Oriental people. A system of education totally separated from the Mohammedan faith brought about a state of resentment."

"Then when a lot of Englishmen were imported to take the Government jobs, regardless of their fitness, leaving only minor jobs to the Egyptians. The Egyptians are divided into two classes, the Effendi, or educated class, and the Fellah, or peasants. The greatest ambition of the Effendi is to obtain a job in the civil service or become a lawyer. Young Egyptians flocked to the schools and equip themselves for handling the greater part of the government work. However, they find these jobs are mostly reserved for Englishmen, often no more capable than themselves."

"Consequently there is a large class of educated unemployed. Out of this class was born the Nationalist party, fifteen years ago. Recruits were gained through the natural objection of a Mohammedan to being ruled by a Christian."

"Another cause for trouble is the close alliance of many families with Turkish families. They view the breaking up of Turkey with dismay as the breaking up of their religion."

"So much for the wealthier class. The Fellah, wholly uneducated and living to themselves on little bits of land, have for the most part obtained real benefits from British rule; irrigation, abolition of forced labor, limitation of conscription, protection from Bedouin marauders, etc. They have been apparently grateful and contented. Hence it is difficult to account for their attitude. Their greatest complaint seems to be due to Army requisitions. The complaint is general that stock and crops have been taken and not paid for. The method generally followed was for the British to demand from the headman of the village a certain number of donkeys, corn or other commodities. The headman would then take them from the villagers and hand them over to the military authorities who would pay for them in bulk. There was no supervision to see that the money was distributed. Consequently in innumerable cases the money was never paid over to the actual owners. The Fellahs then were told by their headman that the British had not paid him."

"These things gave great opportunities for political agitation. One of the demands is that the British evacuate Egypt at once. This the British never will do, for two reasons. First the Suez canal is necessary for the maintenance of communication between the parts of the Empire; second much English capital is sunk in Egyptian cotton. British policy is now one of conciliation, but it will take a long time to regain the good will of the masses. The present trouble is far more serious than generally appreciated and it is a question which way it will result."

## DECLARES THIS IS BEST TONIC SHE EVER USED

Grateful Pennsylvania Woman Strongly Recommends Dr. Williams' Pink Pills

"If more weak-blooded, run-down people would use Dr. Williams' Pink Pills, I am sure that there would be much less misery." This is the statement of Miss Catherine Hoffman, who lives at No. 120 North Water street, York, Pa. She is one of thousands of grateful people who have used this widely known blood builder.

"I was weak and badly run down," continues Mrs. Hoffman, "and I suffered acute stomach pains. Nothing seemed to agree with me and occasionally I was attacked by sick headaches. I was very nervous and my blood was so thin that my hands became numb and sometimes they felt as though pains were pricking them. My sleep was disturbed and I didn't feel rested in the morning. Dr. Williams' Pink Pills with great benefit and decided to give them a trial. In a very short time I began to pick up strength and was soon able to do my work without feeling exhausted. I can eat a hearty meal now and never have any distress after eating. The headaches have practically disappeared, I am no longer nervous and as my blood grew richer my complexion and circulation improved. I certainly owe a great deal to Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills are sold by all druggists, or direct from the Dr. Williams' Medicine Co., Schenectady, N. Y., at 50 cents per box, six boxes for \$2.50, postpaid, on receipt of price. Write for the free booklet on "Building Up the Blood."

## WETS TO ASK VOTE

Ohio Liberals to Petition Ballot  
On Prohibition

COLUMBUS—Ohio liberals today indicated that they will circulate petitions for a vote next fall designed to revoke the state constitutional prohibition amendment adopted last fall.

Even though the constitutional amendment was revoked and Ohio would be put in the wet column, it would only be until January 15, when the entire nation goes arid. Wets, however, contend that it would be good propaganda for Ohio to go wet and perhaps would be influential in swinging the rest of the nation back to a barleycorn status.

Wets are also to conduct referendums on dry laws passed by the legislature and will try to have a referendum on the action of the assembly in ratification of nation-wide prohibition.

# FIGHT IS OPENED FOR REWARD OF U. S. SOLDIERS

Congress Gets Plan For New  
Bonus—\$50 a Month is  
Proposed

WASHINGTON — The opening  
gun in a fight to win for discharged  
soldiers and sailors pay for "the full  
commercial value" of the time they  
spent in service has been fired in  
Congress.

Each member of the House and  
Senate has been presented with data  
drawn to show that, despite incon-  
veniences and hardships due to war  
conditions, every other class of in-  
dividuals benefited by extraordinary  
wages and profits during the war  
period, but that the soldier and sail-  
or who underwent the rigors of the  
training camp and the hardships and  
dangers of the battlefield sacrificed  
also, as no other class did, industrial  
and commercial opportunity.

The demand made of Congress is  
that in recognition of this condition  
a special issue of bonds be au-  
thorized to be awarded discharged  
men on the basis of one \$50 bond for  
each month in Uncle Sam's service.  
**TWO BILLION AMOUNT**

As it is estimated that an aggre-  
gate of 40,000,000 months were

served by our boys in camp, trench  
or on the seas, this would mean an  
issue of another two billions in  
bonds.

No new bond selling campaign  
would be required, however, as these  
bonds would not have to be absorbed  
by the public. They would simply  
be passed out to the soldiers, the  
government debiting itself with the  
two billions and providing a sinking  
fund from taxation to redeem them  
at maturity.

It is proposed that in accepting  
this "payment" for sacrifices, each  
man would give a signed release to  
the government forever disavowing  
any service pension claim.

It is certain, however, this propos-  
al will find hard sledding in Con-  
gress, despite all protestations of ad-  
miration for the work of the fight-  
ers.

"MIGHT COMMERCIALIZE"  
Congress is inclined to the view  
that our returning fighters should  
be satisfied with the honor of hav-  
ing finished the job and that any  
considerable additional monetary re-  
ward would tend to commercialize  
the patriotism of all young men who  
offered themselves in the country's  
service.

In contrast with what the United  
States has done, Canada awards to  
her soldiers are presented for con-  
sideration.

A married man who served three  
years with the dominion forces is  
paid \$100 monthly salary for six  
months after discharge. If he is un-  
married, he receives \$50 a month. If  
he has served two years, he receives  
\$500 in five monthly installments,  
and the single man for a like period  
of service gets \$350. For one year's  
service the allowance is \$400 for the  
married man and \$250 for the single  
man.

The purpose of these payments is  
to insure the independence and re-  
spectability of the men after their  
return to civil life until they can  
fit themselves back into the indus-  
trial scheme.

## BACK LIKE A BOARD? IT'S YOUR KIDNEYS

There's no use suffering from the  
awful agony of lame back. Don't wait  
till it "passes off." It only comes back.  
Find the cause and stop it. Diseased  
conditions of kidneys are usually indi-  
cated by stiff lame backs and other  
wrenching pains, which are nature's sig-  
nals for help!

Here's the remedy. When you feel  
the first twinges of pain or experi-  
ence any of these symptoms, get busy  
at once. Go to your druggist and get  
a box of the pure, original GOLD  
MEDAL Haarlem Oil Capsules, im-  
ported fresh every month from the  
laboratories in Haarlem, Holland.

Pleasant and easy to take, they instan-  
tly attack the poisonous germs clog-  
ging your system and bring quick relief.  
For over two hundred years they  
have been helping the sick. Why not  
try them? Sold everywhere by re-  
liable druggists in sealed packages.  
Three sizes. Money back if they do  
not help you. Ask for "GOLD  
MEDAL" and be sure the name  
"GOLD MEDAL" is on the box.

ANECDOTES  
FROM LIFE

By Milton Brouner

WASHINGTON.—When Citizen W. C. McAdoo was secretary of the treasury he emitted this epigram to encourage people to save their money and invest in Liberty bonds:

"Now is the time when it is a badge of honor to wear patched pants and half-soled shoes."

In one of his Liberty loan speaking tours, McAdoo agreed to a hand-shaking reception.

"Lift up your foot," a woman ordered him.

The secretary remembered that epigram, and also he remembered he was wearing a wholesaled pair of shoes.

McAdoo pretended he did not hear the lady, and started to shake hands with the next person, but she didn't budge.

"And I want to see the patches on your pants, too," she demanded.

He had on khaki and he sat very still and silent. He wore spectacles of deep black glass. And his arms ended at the wrists. He was a caller on Senator William S. Kenyon of Iowa.

Kenyon told me the story with tears. The unfortunate lad is Henry A. Bitter Jr. of Dubuque, Ia., who went over there and came all thru the battles without a scratch. Five days after the armistice, his outfit was doing some practice charging thru a smoke barrage. A defective hand grenade which Bitter was carrying exploded. It cost the young soldier both his eyes and both his arms.

Kenyon is going to arrange to have special provision made so that an attendant can be furnished the young man who is absolutely helpless in everything that goes to make up life.

Two or three times during sessions of Congress, there is published by the government a congressional directory which contains among other things biographies of all the members.

Edwin S. Johnson, the farmer who is that rare bird, a Democratic United States senator from South Dakota. As a result Johnson wrote the briefest biography in the directory. It took up just two lines as follows: Edwin S. Johnson of Yankton, S. D.; born in Owen-co, Indiana, a long time ago; was always proud of his ancestors and family."

**WANTED—BOYS AND GIRLS TO LEARN THE CIGAR MAKING TRADE. PAID WHILE LEARNING. OPPORTUNITY TO MAKE GOOD WAGES. BOYS SHOULD BE 16 TO 18 YEARS OF AGE AS THEY ARE MORE APT TO LEARN THE TRADE QUICKLY AND BECOME EXPERTS THAN WHEN OLDER, AS IT IS ALL HAND WORK.**

**ALL MEN RETURNING FROM THE SERVICE ARE WELCOME BACK TO THEIR OLD POSITIONS. THE DEISEL-WEMMER CO.**

**VICTIM OF MANY MISHAPS DELPHOS.**—Will Fetzer met with a painful accident while at work at the Delphos Mfg. Co., by getting his fingers and thumb severely burned and mashed, in the galvanizing department. He will likely lose the fingers and thumb of his right hand. About one year ago his house burned; several weeks ago he was severely burned about his face with hot metal.

DRINK HOT TEA  
FOR A BAD COLD

Get a small package of Hamburg Great Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND  
LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Liniment

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 30 cent bottle of old, honest "St. Jacobs Liniment" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly!

## AS YOU LIKE IT

On a New York Central train a short time ago one of those old "boys" who affect gallantries, youthful dress and other follies which they imagine disguise their "three score" and make them irresistible to the fair sex, pranced into the dining car. The only vacant seat in the car was at one of these tete-a-tete tables opposite a very bewitching "bud." Pulling out the unoccupied chair he bowed low to the young woman and, with just enough emphasis on the word "young" to plead the playfulness of age if called down, said, "You won't mind having a nice young man dining opposite you, will you?" "No, indeed," she replied, "I shall be delighted. Bring him in."

One of our office boys is named Mike and the other is named Angelo, which, as Dr. Brander Matthews might say, is some flossy combination.

Our private opinion is that, while Mr. Arty Ayker may be a gentleman of more or less recklessness, he is a short sport.

## ALL RIGHT, OLD PAL

Dear Roy: Allow me to correct you! The best piece of news since the signing of the armistice was that of the landing of Read in Lisbon. We are glad to see that the English sport was saved, but the best news? Oh, shame, SHAME on you!—The Greenpoint Rambler.

It is pleasant to find what many are willing to grant the allies in the way of peace terms. It leads us to wonder who won the war, anyway.

In Japan the censors do not allow kissing in the movies. But who wants to love in Japan, anyhow?

If our mandate in Armenia allows us to hand it to the Turks when we please, it may be worth while.

Maurice Maeterlinck says it will be much easier to die in the future. And most everybody would rather die in the future, too.

We hear much now of another coal famine next winter. Why not let us have this year's coal famine first? One at a time, please.

## The Treaty Leak

NOTHING HAS so stirred the United States Congress since the signing of the armistice as has the treaty leak, now under investigation. The presentation to the senate of what is declared to be an authentic copy of the treaty presented to the Germans by the Allied powers by a Chicago newspaper has caused a sensation. This newspaper declares its representative got the copy in Paris and brought it back. It prints the document, claiming to be the first to give it to the American people.

THE INVESTIGATION in Washington is to determine how the leak occurred. President Wilson has given his support to this probe, saying the document, being under negotiation, had been guarded by the Allied powers and was not ready for publication.

IF THE COPY handed to Senator Borah by the Chicago paper is the original, as it is claimed to be, it proves that there is a channel open in Paris which the various powers know nothing of and which will prevent all secrecy. Since the administration has gone on record as against secret treaties, it is probable that little damage has been done in the publication of the document even if it is authentic.

## Liquor Violations

POLICE HAVE ARRESTED one intoxicated man since the dry laws took effect here. They are convinced that he secured his liquor illegally. The fact that he admitted to authorities that he had purchased a pint of whiskey for \$2.50 indicates that some individual or individuals are expecting to make a big profit illegally.

THE CITY HAS BEEN comparatively free from drunkenness since prohibition went into effect. One arrest means nothing. It is the fact that illegal traffic in wet goods is attempted that should hold the attention of the police. They should bend every effort to run down the violators and when they are brought into court the full penalty of the law should be administered. The people voted out liquor. While that law stands bootlegging is not to be countenanced.

## Advertisers

WILL THE MOVIES replace the department stores of the nation as the leaders in advertising? For years the large stores have held the lead and until the motion picture was invented nothing had appeared which promised to come near them in this line.

BUT THINGS have changed. In many sections of the country the motion picture theaters are running almost as much advertising in newspapers as are the department stores. Publicity on the movie is on the increase and experts believe that within a comparatively short time they will be carrying as much advertising, the entire country considered, as do the large stores.

MISS LIMA: "It's almost a safe bet that what we put off today we won't do tomorrow."

## Snake Bites

WELL, IT'S ALL settled now. If you haven't a goodly supply of the liquid known as whiskey you needn't feel a bit more afraid of snakes' bites than if you had several barrels.

JUST AT THE time when many are bemoaning the fact that they did not lay in a supply sufficient to protect them the remainder of their lives if they were bitten, along comes the reptile expert of the National Museum and says the old belief was wrong. He declares the drinking of whiskey when bitten by a poisonous snake decreases the chances for recovery in that it places a heavier load upon the heart.

# CONFESSIONS of an EVERY DAY WIFE

BY EDNA MCGILL GIBSON

CAN A CAD BECOME A GENTLEMAN?

In an instant the whole thing became plain to me.

The man, of course, knowing Major Gordon, and that he was the man whose name had been forged, intended to use Ellene and her letters to get himself free from the punishment of his crime. What-ever his plan, I could see that my knowledge of his identity would help me out.

But I also realized that here was a very delicate situation and if I would keep from Major Gordon Ellene's former attachment, I must make George Mordyke understand that he must not mention Ellene's name to the Major.

"All right," I said. "But I have a suite of rooms and I really think you had better not be seen at all. I will send a card and ask him to come to my sitting room and I am sure he will get out of the way as soon as he is promised immunity." It was with great trepidation, however, that I started on my errand. I sincerely thanked the fate that threw the Major in my way before he met his old friend. Had they not done so I could see poor Ellene's love affair coming to a very unhappy ending.

Slowly I went up to the rooms I had engaged and sent up Ellene's card. As I expected in a very few minutes there was a knock on my door.

When I opened it, a rather handsome man whose face was lined and figure coarsened by dissipation, stood before me.

"I beg your pardon he said, 'I expected to find Miss Symone here.' 'I am Miss Symone's sister.' 'I did not know she had a sister.'"

"I am her brother's wife." "Margot," he said eagerly as he stepped inside.

"Mrs. Theodore Symone," I corrected coldly.

"Ellene has told you?" he questioned.

"Yes." "How much?" he asked smiling.

"That you are a cad," I answered and then quickly I knew I had made a mistake, and I hurriedly proceeded to explain.

"No man who was a real man would treat a girl as you have treated Ellene. When she was too young to differentiate the true from the false, you taught her to love you, and then, tiring of her girlish sweetness, you threw her aside, playing fast and loose with her as your mood willed."

"Lately you saw from her letters that she probably had found someone else that she might love and you determined to make her love and her letters pay for your immunity from punishment in this country of your crime. Wait!" I commanded, holding up my hand as he tried to speak. "I don't want to listen to your lies because I know all; I know why you hurried away to China and I know that when you found from Ellene's letters that she probably cared for Major Gordon—the man whose name you forged—you determined to come back and trust either to Major Gordon's love or Ellene's

fears to get you out of the scrape."

"How did you know?" he demanded breathlessly. "Did Ellene tell you? Did Major Gordon tell her? Curse him!"

"I warned 'Major Gordon does not know that you ever heard of Ellene, neither does Major Gordon know that I know you. I found out your story—identically."

"Even Ellene does not know that you are a criminal," I answered. "She showed me some of your letters to her in which you threatened to show her letters to the man you thought she loved. I promised to get these letters for her."

"Ah, you did, did you?" was his

comment as he suddenly seemed to regain his confidence in himself. "I think you will find, my dear Mrs. Symone, that you have overestimated your powers of persuasion."

"I know now that I have overestimated your decency and sense of right. And I also know that I probably would not get these letters without more or less scandal if I had not met Major Gordon here about ten minutes ago and he told me that he was here to identify you for the bank. You have been

### BIRTH MARKS

A little girl twelve years old has a bright red mark extending from her eye to her ear, which mark was present at birth, her mother states. And just lately another blotch has come near the first mark which adds to the unhappiness of the little girl. What this recent blotch may be is impossible to suggest.

What causes birthmarks? Well, the unromantic truth is that the notion of "marking" is 100 per cent myth.

The wonderful part of it is that so many of us are born without a blemish, that nature makes so few mistakes.

There are various remedies available for birthmarks or blemishes of various kinds. Among them are the electric needle in

medical or surgical hands, carbon dioxide snow applied by a physician, X-ray treatment and sometimes surgical treatment.

The special mode of treatment must be determined by the requirements of each individual case. The most difficult birthmarks to eradicate are the port wine stains, but when these are perceptibly elevated above the skin level they are more successfully treated. In nearly every case the appearance may be greatly improved by proper treatment.

### QUESTIONS AND ANSWERS

**Reply to Discouraged Mother**  
Since you lacked the sincerity to sign your letter, I am unable to give you the personal reply I called for, but in the interest of your daughter, let me check the rule, in order to publish the answers to the questions. If you can remember what you wrote, are I probably nothing. The question of marriage is not affected. (Q) So far as your letter shows, there is no bar to marriage.

**Freedom From Eye Fever**  
Will you please mention a few places where one might reasonably expect to have freedom from eye fever? (Q) H. V.

**ANSWER**—The American Hay Fever Association (Dr. William Scheepers), New Orleans. President suggests the following places, where more or less immunity may be had: Silver Plume, Colorado; Loveland and Abita Springs, Louisiana; Mackinac Island, Michigan; Duluth, Minnesota; The Adirondacks, New York; North Carolina; Florida; Pecos Mountains, Pennsylvania; Two Rivers, Wisconsin; Alberta, Canada; Moosehead Lake, Maine; Bethlehem in the White Mountains, New Hampshire; Albuquerque and Sulphur Springs, New Mexico; Roan Mountain, Tennessee; the Green Mountains, Vermont; the Cascade Range, Washington.

**LEGGS**  
I would like to know how to reduce the size of my legs. One leg is 14 1/2 inches around the heaviest part of the calf, and the other is 15 1/2 inches. I weigh 120 pounds, and my body is otherwise slim. (Miss R. A. J.)

**ANSWER**—The calf of the leg measures 15 1/2 inches in the ideal woman. Wear vertical stripes if you wish to camouflage your perfect calves.

**Not to be Repeated**  
I recently called in a physician to attend my wife for a severe cold. He wrote a prescription, and when I had the prescription filled I found the bottle marked "Cannot be refilled without order from physician" or words to that effect. As more than one means might be taken from that, and not wishing to do the doctor an injustice, I would like to know why such instructions are on the bottle. (S. H. G.)

**ANSWER**—A good physician usually prescribes for present conditions, and does not intend the present prescription to be indiscriminately or indefinitely repeated without his sanction. Hence the non-repeat order.

## "LOWERS" TAKEN

By Richard Spillane

There was a time in the history of the American railroad when an ordinary traveler could get at some time or other in his journeying an opportunity to become acquainted with a lower berth in a Pullman.

But not now. A writer who went up and down, over and across the map from Maine to Utah and from Texas to Minnesota at various times these last few years never in that time has become acquainted with a lower berth.

He has gone to railway offices 50 times and been told "nothing but uppers." He has asked 116 fellow passengers in the course of the last six months where they were located in the car and the answer has been "upper 6" or upper 9" or "upper something."

**LOWERS ALL GONE**  
Are there any lower berths these times and if they are who inhabits them and how and why is the privilege obtained?

Some thing should be done by Walker D. Hines, director general of the railroads, in regard to this matter of lower berths. If they have been turned over to sufferers in Europe as most of our foodstuffs and other things have been, the fact should be known.

If not, if there is an embargo on selling lower berths to the American traveler official announcement of the fact might be made.

# U. S. RECOGNITION OF IRISH REPUBLIC ENVOY IS ASKED

Dr. Patrick McCartan, WASHINGTON.—(Special).—Dr. Patrick McCartan, accredited envoy of the Irish republic to the United States, will receive recognition if congress passes the bill introduced in the house by Representative William E. Mason of Illinois appropriating \$14,000 for a diplomatic corps from the United States to Ireland. Later on the measure will be offered as an amendment to the diplomatic and consular appropriation bill.

The bill follows the lines of a resolution introduced in congress one hundred years ago by Daniel Webster, providing for recognition of the independence of Greece; and also follows a similar resolution offered by Henry Clay to appropriate money for a diplomatic corps to the Argentine republic.

Recognition of a newly formed government depends upon the president, but there have been cases where congressional action brought about by bills like that introduced by Mr. Mason have secured recognition for struggling nations. When President Jackson refused to recognize the Republic of Texas, congressional

action was taken which gave the Texan government formal standing. Representative Mason, in introducing the bill, said that he did so in the interest of universal peace.

Mr. McCartan, the envoy of the Irish republic, is engaged in making public talks in the country in behalf of Ireland. He lives at Philadelphia.

**CONTRACTORS MEET**  
COLUMBUS.—National and state conventions of the Sheet Metal Contractors' Association will open here simultaneously Tuesday afternoon. More than 500 delegates and visitors are expected to attend the sessions which will last until Friday noon.

Mayor Karb will deliver the address of welcome. Gov. Cox is to talk on reconstruction problems.

While delegates are attending business sessions their wives will be entertained by a committee of 26 women.

**SEEK LEASE ON SHERMAN**  
COLUMBUS.—Owners of the land on which Camp Sherman is located Monday received requests to renew their leases with the government for another year.

This request is made because congress has not sanctioned the war department's plan to purchase the land, though deals have been closed for all but two parcels of the ground.

## MERCHANDISE CONSCIENTIOUSLY SOLD

It was interesting, last Saturday, to see the elements vent their worst upon an earth that had yearned for moisture after the prolonged hot spell.

The lightning seemed playful in the western skies; but the thunder boomed away with snarling rage that meant so little, yet acted so big and commanding.

Many stores throughout the country are much the same, too, they extravagantly tell of the worth of an article and then in large, bold face type they "thunder" what price they sell it for.

Much thunder sometimes lures the unsuspecting to purchase.

The policy of this institution is to advertise the actual worth of merchandise—that is what it is sold for in this house—and not what it *should* bring.

When a special reduction is quoted, there is no flamboyant, bombastic, fraudulent statement made. Simply what the merchandise was marked before the reduction and the new lowered price.

It is the truthful, consistent value that we find is appreciated.

One of the very best "apparel" friends that a woman can have in the hot summertime, is a good white wash skirt.

In the way of pockets, one will find novelty, slash and patch effects. Trimming is mostly of pearl—sometimes in buttons great or small and otherwise in buckles. At \$6.50 a remarkable value

## Great Economy In Buying Rugs at Bluem's

The great economy in buying for the home or for one's personal wear, comes not in obtaining what one wants because the price is low but in securing the very best quality merchandise at a constant price.

Such a practice should be exercised in rugs particularly; for when a rug is purchased, it must last a long, long time. So long that a cheap rug quickly turns into a small heap of discolored rags while a rug of quality shows up in bright patterns and colorings.

The cheap one in a few years must be replaced and the price of replacement figuring the value of the first rug is a great deal larger and you have not had the richness and luxuriousness of one of better quality.

Rugs of the best quality that stand the test of long years of service come in all size in Wiltons, Body Brussels and Axminsters. Great assortment of pattern—at very moderate prices.

## REDS AND GIANTS CLASH FOR LEAD

By H. C. HAMILTON

United Press Staff Correspondent  
NEW YORK — If the Giants are on the road to a shattering crack it will begin to be apparent today, for the cocky ancients of New York are billed for a tangle with the Cincinnati Reds—in Cincinnati.

If the Reds can't hold that line the west night as well resign itself to an inexorable fate, which it has become used to doing.

With the loss of Rube Marquard from the Dodger pitching staff with a broken ankle the battle has settled for the present between the Reds and the Dodgers. The Cubs have gone into the third place with a hurling battery that is rounding into form, which makes them highly dangerous, but not immediately ready to vault into a death grapple with the two leaders. For that matter the position of the Giants is strong enough to withstand some husky challenges for a time.

In the American league the Yankees have deferred themselves into

second position through a day of idleness, coupled with a Cleveland defeat. They will be called upon to prove the fitness today of the Detroit pitching staff. The Tigers have been trying to rouse themselves from the slumber-period of a couple of years and are having passable success.

However, they have not yet thrown themselves in the terrible row of clubbers the Yankees have accumulated. The last clash between the teams was before Leonard reported and while Slim Love was ailing.

The White Sox have moved on to Boston, where opposition to visitors has reached a pathetic stage.

## YANK BOXER PUTS BRITISHER AWAY

LONDON. — Eddie McGoorty, American light heavyweight, knocked out Dick Rice, of England, at Blackpool last night, after a minute and nine seconds of what was to have been a twenty round encounter. The American followed a left hook to the jaw with a right hand smash to the ribs which felled the Briton.

## Ringside Flashes

TOLEDO—After the camp castles of Monday, both Willard and Dempsey will be a little more careful in their workous this afternoon. Jess still carries a cute egg under his left eye, a development of Jack Hemple's right hand swat. And Dempsey is wearing a plaster over his right eyebrow which was decorated by the Jamaica Kid.

Jack Ross, of Winnipeg, heavyweight champion of Canada, who was knocked a cuck-o by Dempsey in 20 seconds on Monday, will try it again today. Ross is six feet, two inches in height and weighs 190 to 200, but he couldn't stand the terrific swatting of the challenger.

Monday night Jack Sheppard and Frankie Neesler will meet here in a ten-round bout at Elmwood Club to decide the lightweight championship of Cincinnati. The winner of the championship will then be signed with Ever Hammer of Chicago, and that will prove one real ring battle.

A classic is to be pulled off in Philadelphia, at the National League ball park, June 16, Cham-

plin Johnny Leonard meets Johnny Dundee. Eddie Moy will go up against Irish Patsey Cline, and Harry Greb will clash with Joe Borrell. They are all six-round affairs.

Frankie Burns, of Jersey City, and Battling Reddy, Cincinnati, will box eight rounds before the victory A. A. of Jersey City, June 16.

## Watching the Scoreboard

Yesterday's hero—Bill Doak. The St. Louis veteran held the Phillies to one run, accounting for the final victory in a clean sweep of the Cardinals at Philadelphia.

The Reds triumphed over the Dodgers 7 to 2, in a game where Rube Marquard broke his ankle rounding second.

The Indians were the sufferers as the Athletics decided it was time to win a game. They did it 3 to 1.

Braves errors gave Jim Vaughn another victory for the Cubs, 3 to 2.

## EXPRESSMEN TO HOLD AN OUTING

Good Results Being Obtained in Campaigns for Better Service, Agent Says

Employees of the American Railway Express company will have a get-together meeting and outing at one of the local parks, probably McBeth's, June 20. All local employees and their families will attend and invitations will be extended to those of surrounding towns. It is the plan to have officials of the company at the outing.

This meeting will be in line with those which have been held by the employees in their campaign to give better service to the public. The drive for better packing and marking of packages met with great success. Now they are conducting what is known as "Making good with the public" drive.

A meeting along this line was held Monday evening and much enthusiasm shown. Local Agent F. T. Priest announced that great betterment in the service has resulted from the interest the employees have taken and predicted that far-reaching results will be accomplished in the program they have mapped out.

Mr. Priest gave figures to show that the better marking campaign brought about far better results, many packages which otherwise would have been delayed or which

would never have reached their destination, having been handled in record time.

## Announcement

Since the announcement in the Sunday morning papers that there would be a joint debate on the City Manager form of Government between Mr. Stuart Tatum of Springfield, Ohio, who was to be presented by the Committee of Two Hundred, and Mr. Shartz who was to be presented by the Trades Labor Council of Lima, the Committee of Two Hundred has made a strong effort to get Mr. Tatum here, but owing to his engagement in a law suit and some other important engagements for the evening, he is unable to be in Lima tonight.

Mr. Tatum has promised, however, to furnish a stenographer for the meeting, who will take all the arguments presented against the City Manager form of Government, and he has agreed then to come to Lima at an early date and present his side of the question and his answers to all arguments presented against the City Manager Form of Government.

The Committee of Two Hundred believes in this way, both sides of the question will be as fairly presented to the citizens of Lima, as can be given under the circumstances.

## ALL-STAR CAST FOR ATHLETIC CLUB SHOW

### New Organization Gets Under Full Sway With Opening Show Plans Complete

What promises to be the finest boxing exhibition ever staged in Lima will be the first offering of the recently organized Lima Athletic Club, for their opening show, June 19th.

K. O. Brown and Mike O'Leary will feature the main event and both boys are rated high in the estimation of fight fans. Brown's record is on file, and is a credit to any boxer who has been in the game. O'Leary is making ringside favorites every time he appears, and local fans are boosting the boy for high honors.

Freddie Hammond will be recalled as having met Young Ketchel in Lima several months ago, at the occasion of the first boxing bout of the year, in the Armory Hall. Hammond is boxing instructor at the Detroit Athletic club, and is a clever, aggressive boxer. Young Webb just staged a 15 round draw in Dayton Saturday night with Happy McHenry, and is known to be a whirlwind boxer of unquestioned merit.

The main event will be a 12 round affair, with the semi-final 10, and a preliminary of 8, in which two well-known boys will meet.

At a regular meeting of the Lima Athletic club held in the Chamber of Commerce hall Monday night, plans for the future bouts were discussed, and local fans will be treated to some excellent talent, according to the advance sheets. The June 19th exhibition will be a sample, the club members say, of what is to follow in regular monthly shows.

Charter memberships in the athletic club are being sold for \$12 a year, or \$6 a half year, and hundreds of fans are taking this opportunity of getting a reserved seat to a boxing show a month of the above class for \$1. The club decided that a maximum of 1,000 charter members would be sufficient to enable the monthly shows to be satisfactorily put on, and fans from all over the district are signing up in the local organization.

With Walter Perry as match-maker the club is enabled to get in touch with the best ring talent in the country and many high class bouts are promised.

Jimmy MacKenzie, county commissioner; Joe Cousins, H. E. Simon, Jimmy Morton, Herb Beyer and many others are handling the business affairs of the club, and are determined to make it the expression of Lima's red-blooded Americans who like real, live sport of all sorts.

Membership blanks are to be had at the Manhattan Cigar store, recently taken over by Conale Hershberg.

## BIG GUN SHOOT HERE THURSDAY

Shooters from all over the state will line up in Lima Thursday in competition, at the third gun-shoot of the season to be staged by the Central Ohio League, of the National Trapshooters association.

The meet will be held on the Linneman Farm, a quarter mile south of the end of the Pine street car line. Targets are all set, the arrangements entirely made for a big day.

At least 125 shooters will make the trip to this meet, and some records will probably be smashed. Several of the shooters signed for the meet are expert clay-pigeon gunners.

The regular program includes 100 registered targets, 50 special targets, and 10 pairs of doubles. It is intimated that the winner will have to smash the entire 150 pigeons to get first money, as some of the finest gunners in the state will be here.

After the regular session a 20-gauge shoot will be staged between Dr. Markham, of Dayton and J. W. Reed of Lima. These two experts will make this difficult shoot as a special attraction.

Luncheon will be served on the grounds by the Epworth League, as the shoot commences at 9 A. M. sharp.

Practice will be held Wednesday afternoon on the shooting ground. One meet has been held at Springfield, and one at Kenton, this season and two more are to follow the Lima meet.

Ideal weather will attract hundreds of followers to the shoot.

### LOOKING 'EM OVER

Jamieson of the Indians started in the American league as a pitcher and was switched to the outfield. He has been hitting like a pitcher so Lee Fohl gave him a chance in the box where he immediately showed fine form—as an outfielder.

Branch Rickey is not going to book any double-headers at Cardinal

park this season unless there is no way to avoid them. Despite the way the St. Louis fans have abused Branch, he still seems to have a soft spot for them.

It is not surprising Hughie Jennings is trying to arrange a trade. His pitchers have not been working according to form at all here of late, even going so far as to hold the other teams to four and five hits.

A dry state may have wonderful

advantages, but it would take an eloquent preacher to convince Kid Gleason his White Sox were benefited during their recent visit to Detroit.

Up in Columbus they are constantly calling attention to the fact that Billy Southworth, Pirate star, hails from that city. Why don't they let him alone when he's happy?

But if those scribes in Columbus want to boost their home folks why did they lament the small crowd

which turned out to see Toledo play there? Their attendance on such an occasion would have been no compliment to their intelligence.

By the way, Columbus got Wise from Toledo, which would indicate that Wise also got wise.

If Secretary Burleson thinks he has a monopoly on all the troubles in Washington he might have a little chat with Clark Griffith.

Story of a recent game in Bloomington stated the Bloomers showed good form. Bloomers will do that.

The name of the new coach at University of Arkansas is Couthie. Bet he makes the athletes get a wiggle on.

Jess Willard is said to be the chief attraction at the hotel where he hangs around in Toledo. His only rival in popularity at the hotel was removed May 26.

And they tell us Jess don't get excited any more, but takes things cool. Then Tex Rickard won't have to be afraid to hand over that coin to him after the big battle.

**Short Shavings**

Mr. Jinks came home at an unseemingly late hour one night, and was surprised to see a figure sitting up for him below the stairs, with no

other light than that of the gas lamp to keep her company.

"M-M-Marie," he said huskily, "you should not set up state when I'm on business."

As Mrs. Jinks did not answer him, he continued in an alarmed voice:

"Shorry, m'dear, but it's late time—tell you I'm shorry."

At that moment Mrs. Jinks' voice was heard from the top of the stairs:

"Who are you talking to at this hour of the night?" she asked.

"Thash what I'd like to know, m-m myself," stammered Jinks.

Mrs. Jinks hastened downstairs, lamp in hand.

"It's the model," she said; "the model I bought today to fit my dress—on."

"Yes, thash so," said Jinks, tip-toe; "model woman—didn't talk back—make some fellow good wife."

The lady of the house lacked a cook, and said she would have a look at the advertisements. Her husband noticed that she was searching through the notices of deaths. "I thought you were going to search the 'want places,'" he said. "You are looking at the deaths columns."

"I know," she replied, "I wish to see what cooks have lost their employers."

"When I say a thing," remarked Bliggins, "I mean it. I never change my mind."

"I'm mighty glad to hear it," replied the diffident friend. "I remember some mighty interesting things you said about paying back \$10 you once borrowed."

**Great For Emergencies**

San Cura Ointment Should Be In Every Home

There never was known a more reliable ointment than San Cura. In most every case where it has been used it has created astonishment.

It drew a needle out of the foot of the daughter of Mrs. James Hitchcock, of Centerville, Pa., after the doctor had used his lance and failed.

It has great healing and antiseptic value. It possesses so much healing virtue that it is guaranteed by Hunter's Drug Stores and Butler's South Side Drug Store to relieve any kind of piles, eczema, tetter, salt rheumatism, boils, carbuncles, ulcers, all kinds of chronic sores, chafing, and chapped hands or money back.

It's a mighty handy remedy to have in the house in emergencies for bruises, burns or scalds, bee and other insect stings, and is antiseptic and healing. It's a medicine chest in itself—a little family physician that is ever in demand.

It is sold at Hunter's Drug Store and Butler's South Side Drug Store.

**More Thriftographs**

Buy what thou hast no need of, and ere long thou shalt sell thy necessities.

It is easier to suppress the first desire than to satisfy all that follow it.

He that murders a dollar destroys all that it might have produced, even scores of dollars.

He that has a savings account in the Allen County Savings & Loan Company has made himself much happier and guarded himself against the day of sickness or old age.

**A PAIR OF N. W.'S THAT EXCEL IN TEAM WORK**

Nerv-Worth and Nerv-Worth Laxative Tablets Pull Together for Strong Nerves and Good Health

These two have marked value at this time of the year when the system is winter-weakened; and in this particular springtime when to debility engendered by winter, there is an extra burden of nerve disorder engendered by influenza, with a serious lowering of nerve force.

A bottle of Nerv-Worth and a 25 cent box of Nerv-Worth Laxative Tablets form a combination without equal in restoring nerve force by making over the weakened nerves and by building up the entire system. The tablets are especially valuable in cleansing the bowels for those whose habits of constipation do not quickly yield to the laxative properties of Nerv-Worth the liquid. Your dollar back if Nerv-Worth does not do for you what the foregoing claims it will do.

Lima Nerv-Worth drug stores: Butler's Main and Kibby, The Central, Main and High; Everybody's, Main and Vine.

The Central Drug Store sells Nerv-Worth at Ver-siller; Hutter's Beaverdam, Central, Wapakoneta, Walmhoff's Delphos, Gasson, Kenton, Powell's, Bellfontaine.

**Jim's Way of Climbing**

In front of us a steep hill, and the road was a long way 'round. "We will climb the hill," said Jim. No path could be seen among the steep rocks that rose above us. But Jim led the way.

The first step was taken, then the next came into view. Up and up we climbed. Here a cleft in the rocks, there a friendly bush or tree. The path was safe when one knew how to go. Soon we were at the top and the rest of the way was easy. "That Path," said Jim, "reminds me of how I earned this farm. When I tried to save the first dollar, it looked like a big job. But other people had done it before, and I tried it, and won."

Yes, the SOUTH SIDE took good care of my money and made it grow. That to me was a big help like these rocks and trees are in climbing this path. It is safe and sure in the SOUTH SIDE way. Why not step up today?
